experience

Web Designer and Developer — Colliga

NOV 2020 - JUNE 2021

- Designed and developed pages for the company's WordPress site to establish brand identity, improve user experience, and optimize SEO
- Utilized HTML, CSS, Javascript, and PHP to create a more dynamic and interactive page showcasing the company's first product

Instructional Apprentice — UC San Diego

JAN 2021 - MAR 2021

- Assisted Professor David Kirsh in UCSD course COGS 187B: Practicum in Professional Web Design
- Guided students during their design process and helped them navigate working on a 10-week design project with a real-world client

Front End Developer — BASH

JAN 2020 - MAR 2020

- Developed a social web app in a team of 3 to encourage gamers to find friends with similar interests
- Led front-end development utilizing Bootstrap libraries to create the app interface based on prototypes and wireframes

User Interface Specialist — You See Events

APR 2019 - JUNE 2019

- Created an Android app in an agile team of 10 to help students find, publicize, and share events on campus
- Designed wireframes in Figma and assisted in Android XML development

community

Residential Assistant — UC San Diego

SEPT 2019 - MAR 2020

- Facilitated a welcoming community for 50 first-year students living on campus by acting as a personal and academic resource

Board Member — Kaibigang Pilipin@ at UC San Diego

MAY 2019 - MAY 2021

- Promoted academic retention among the Pilipin@ student body at UCSD through facilitation of professional development workshops and events
